They brought sanitizer, masks and gloves and made our children to wear it and sit in the bus one by one managing social distance.

After reaching Biratnagar they gave sanitizer again and measured or body temperature. First of all they took children up and down and taught them to deal with money and for doing shopping. After that, the children were taken to a place where they could get clothes. The girls and boys were separated to their clothes department. The children themselves choose clothes by measuring and wearing. After that they were taken to the mall. Those who want to cut their hair they may trim it.
