

Deepa monthly report of september 2021

Deepa Gautam is a nice looking girl. She is quite friendly and talkative. She speaks very fast thus makes other difficult in understanding. She is the most senior girl in the home thus loves to take responsibility of young children. She is 19+ years old and studying in class 10. We know she is a bit below average in her class.

She had rejoined her class from 12th of September. Schools were closed for quite long time because of Covid pandemic. Children were attending virtual classes organized by the schools. She is glad to see and meet her classmates after a quite long time. Deepa attends her class regularly and seems enthusiastic in attending tuition classes at home.

She has no physical problems thus looks fit and fine. She seems keen in learning new things besides her learning difficulties. She wished to have skill training either in beauty parlor or doll making. Deepa knows, she has to leave the home when she grows old. It worries her sometimes.

She is excited for upcoming Nepalese festivals Dashain and Deepawali. She has been a good helping hand to home mothers in kitchen and taking care of small kids. She loves to go for weekly shopping with mothers.

Deepa is selected as advisor to the child club formed among the children in Duhabi Children's Home.

After 6 month she will appear SEE (School Education Exam) i.e. class 10 examinations to qualify for school graduation tests. We are planning to support her in giving training in cutting/sewing, and if possible doll making too. She might join beauty parlor courses if she qualifies it.
