* Nepal hanteert de maankalender "Bikram Sambat", waardoor de Nepalese maanden niet synchroon lopen aan die van het Westen. Het Nepalese Nieuwjaar begint medio april. Ook wordt er een andere jaartelling op nagehouden: Nepal loopt 56 jaar, 8 maanden en 16 dagen voor op de westerse jaartelling. Het jaar 2021 staat gelijk aan het Nepalese jaar 2078 (vanaf medio april).
