

Report of Rashmi Baraily

For the month of September 2019

Rashmi had an study pressure this month as she had various unit tests in the school. Not only had that she also gave her extra time at home for her test preparation. As Rashmi is a hard working girl, she is very much focused in her studies. As Nepalese festival was near, she was very much excited for her vacation too.

This month, a new cooking gas stove and cylinder has been purchased for Rashmi's home for cooking purpose. Rashmi and her mother had to go a long way in the forest to bring woods for cooking. Also, they have to cross the river on the way between. Therefore, the material was brought to prepare food in a convenient way.

As the festival was near, Rashmi brought new clothes for attending various programs and visiting her relatives. She has a vacation till the end of october so she was busy in cleaning houses herself and decorating room with her drawings.

Rashmi's mother and grandmother usually gets ill so sometimes Rashmi feels embarrassed. But her mother is always beside her and tries to comfort her in every situation. Rashmi brought a small medicine capsule for her grandmother with her saved pocket money. This shows how loveable and caring Rashmi is towards her family.
