

Report of Rashmi Baraily

For the month of August 2019

Rashmi had a long vacation this month. Her school holiday lasted for 28 days and re-opened on 11 August. She enjoyed a lot in her summer vacation. She got an opportunity to visit Dhankuta with her relatives. Dhankuta is a hilly area which is 100 kilometer upward from Dharan. There she stayed for 2 nights and enjoyed with her family. Apart from that, she gave her time to her family at home too. Rashmi helped her mother in the kitchen for preparing food. She also helped her grandmother in washing clothes and fetching drinking water from neighbor's tap. Overall, she was active in household works during her vacation.

Rashmi's result published after the school re-opened. This time she did well in her studies as she stood 2nd in her class. Out of 67 students, Rashmi managed to be in 2nd position which is a good result. She scored good marks in all the subjects except Maths and Science. Though the marks are good but she still needs more attention so that she can prepare well for other terminal exams.

Talking about Rashmi's home condition, her mother and Rashmi have problem in bringing firewood from the forest for cooking. Rashmi and her mother have to cross a river before reaching the forest. This feels dangerous to both of them. Due to rainy season this month, Rashmi and her mother couldn't manage to bring adequate amount of firewood for them. For this, the board have discussed to buy a gas cylinder set for kitchen purpose and probably by next month, the material will be purchased for Rashmi's home.
